68498-T

APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions.

This permit to change the place and manner of use of a portion of the waters of Wet Ravine and Spring Branch as heretofore granted under Permit 3100, Certificate 1987, is issued subject to the terms and conditions imposed in said Permit 3100, Certificate 1987, and with the understanding that no other rights on the source will be affected by the change proposed herein. A measuring device must be installed and measurements of water use kept.

This temporary permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The total combined duty of water under Temporary Permits 68497-T and 68498-T shall not exceed 40 acre-feet annually.

This permit is subject to the condition that the permittee must ensure that wildlife which have customarily used such water will have access thereto, NRS 533.367.

The issuance of this temporary permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

This temporary permit is issued pursuant to the provisions of NRS 533.345 Section 2 and will expire on **October 31, 2002**, at which time all rights herein granted shall revert to the right being changed by this temporary permit.

The existing place of use consisting of 10 acres in the N $\frac{1}{2}$ of the SE $\frac{1}{4}$ NE $\frac{1}{4}$ of Section 32, T.21N., R.18E., cannot be irrigated from any source.

(CONTINUED ON PAGE 3)

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed 0.088 cubic feet per second, but not to exceed 40 acre-feet annually.

Work must be prosecuted with reasonable diligence and be completed on or before:

Proof of completion of work shall be filed before:

Water must be placed to beneficial use on or before:

Proof of the application of water to beneficial use shall be filed on or before:

Map in support of proof of beneficial use shall be filed on or before:

TEMPORARY

IN TESTIMONY WHEREOF, I, HUGH RICCI, P.E.,

State Engineer of Nevada, have hereunto set

my hand and the seal of my office,

this 29th day of March A.D. 2002

State Engineer

EXPIRED

OCT 31 2002 *CRC*

ATTACHMENT**Item No. 8: Description of Proposed Works**

The surface water will be collected by water tank trucks at the point of diversion and transported to the proposed place of use for the construction dust abatement.

The Applicant has also filed an additional Temporary Application to Change a portion of Vested Proof No. 09103. Proof No. 09103 is a supplemental groundwater right to Permit No. 3100 (Certificate No. 1987). Woodland Village Homes, Inc. intends to move the point of diversion to a well site within the proposed place of use.

The intended works are a drilled well with pump and flowmeter to pump groundwater and fill the water trucks for dust abatement. The Applicant fully understands that if surface water becomes available that it must be utilized first. Once surface water becomes available the well would not be used, and the water trucks would collect the surface water for the dust abatement under these temporary applications to change.

Refer to previously filed Water Right Permits No.'s 67900-T and 67996-T.
